# High quality cam switches OC10...25 Amperes

## CamWeb2 – Best configuration tool

### It's powerful, it's fast, it's user-friendly

Configuration tool CamWeb2 is designed to allow customers to custom-configure cam switches according to their needs

- ▶ Custom-made cam switches designed specifically for you

## Availability ensured at all times

A lean supply-chain along with local manufacturing ensures a fast delivery

- ▶ You can have your cam switch when you need it

## High quality with the ABB brand

OC cam switches are equipped with the ABB logo

- ▶ Your product is equipped with a mark of high quality and excellent performance

## High performance cam switches

Electrical ratings for various applications in control switching. Modularity in design enables robust switches for more demanding applications

- ▶ Cam switches that perform according to your needs

## Designed for safety

Finger-proof tunnel terminals (IP20) and handles with high protection degree (IP54, IP65 and IP67) ensure safe operation at all times

- ▶ Safe installation and operation guaranteed

## Versatile mounting options

Door- and base mounting. Snap-on handles for door mounting.

- ▶ Quick and easy installation creates savings in both time and cost

## ABB's complete offering

ABB offers a wide variety of switches, breakers, control gear, wiring accessories, DIN-rail components and much more

- ▶ A wide range of LV products available from one supplier

High quality ABB cam switches perform according to your needs. Electrical ratings for various applications in control switching. Modularity in design enables robust switches for more demanding applications. Standard and custom-made cam switches available, easy to configure with CamWeb2, the powerful, fast and user-friendly configuration tool.

# Special cam switches

## Design your own cam switch with CamWeb2

### CamWeb2 – Best configuration tool

#### It's powerful, it's fast, it's user-friendly

Configuration tool CamWeb2 is designed to allow customers to custom-configure cam switches according to their needs.

- Configuration of non-standard switches
- No need to do specifications manually
- Browser application, no installed software needed
- With a broad selection of accessories and contact configurations in CamWeb2, there is always a switch suitable for your application

► Custom-made cam switches designed specifically for you

#### How to use?

- 1 Goto <https://camweb2.com> and login
- 2 Select ampere, poles and handle type
- 3 Select angle system and design front plate
- 4 Specify the contacts
- 5 Make the jumper connection
- 6 Save and Send
- 7 Information output

### Padlockable handle and gang drive selection, configuration with CamWeb2

#### Padlockable nose handle

Front plate size 51x51 mm, snap-on or screw mounted

#### Padlockable extended handle

Front plate size 66x66 mm, snap-on or screw mounted

#### Round padlockable handle

Front plate size 66x66 mm, snap-on or screw mounted

#### Key interlocked nose or extended handle

Front plate size 51x51 mm or 66x66 mm, screw mounted

#### Double gang (Tandem) drive

Front plate size 66x66 mm, screw mounted

#### Triple gang drive

Front plate size 66x66 mm, screw mounted

# Technical data

## Rotary cam switches OC 10...25 Amperes

### Ratings according to IEC60947-3

				OC10	OC25

## ON - OFF switches

The handle and front plate with position indication are included according to the table below.  
Key operated cam switches: the key can be removed in both positions, includes two keys.  
The round front ring: to be used in situations when position indications are on the door of the enclosure. The type and the order number are for one piece.

### 0-position: 9 o'clock, step angle 90°
